St Ann's began as the only women's college affiliated with the University of Adelaide. Today, it is affiliated with all three South Australian Universities. In her foreword, Dame Roma Michell says this volume is a "... social history, chronicling the gradual removal of restraints upon freedom of action which young women accepted in the 1940's and the emergence of a band of self-confident students who in 1972 gave an overwhelming vote that the College should become co-residential . . . It is also a history of the persistence, courage and skill of many people not only in establishing but also maintaining and expanding the College".
