Welcome to this winter edition of 187.

The Collegian’s Committee have, thus far, had an active 2004. A small committee, comprised of James Lenon as Vice-President and Secretary, Travis Olds as Treasurer with Shane Durkin, Graeme Jackson and Simon Stevens as General Representatives, resolved at the Annual General Meeting to donate $10,000 towards the re-building of East Wing. This donation goes some way to helping St Ann’s provide state of the art facilities for university students from rural South Australia, interstate and overseas and the Committee have been glad to play a role, however small, in this process.

The Collegians have held two other important functions this year. In March the Collegians held its annual Pav Show and once again, with stomachs full of lamb and tsatsiki, were unable to beat the students in the traditional Collegians versus Students volleyball match. Maybe next year.

In May the Collegians held another of its Mentoring Dinners at the College. This time the Collegians combined two disciplines; Pharmacy and Physiotherapy. Once again the Collegians were fortunate to be able to secure an excellent speaker in current Council Chairman, Mr Jim Howard. Mr Howard, apart from being Council chair also heads up National Pharmacies and as such was well placed to speak to students. On behalf of the Collegians I would like to thank Mr Howard for attending at and speaking at this dinner, particularly as he cut short a business engagement in Melbourne to provide his time to Collegians and students alike. Thankyou Jim.

For the remainder of the year the Collegians will be holding a Quiz Night on 13 August; the Committee encourages you to turn up and pit your wits against former and current students of St Ann’s.

Physiotherapy and Pharmacy Mentoring Dinner

On Thursday 13th of May the collegians held a mentoring dinner at St Ann’s for past and present Physio and Pharmacy students. The guest speaker was Jim Howard, head of National Pharmacies.

Jim Howard gave an entertaining and informative talk about what students can look forward to while working as a pharmacist and many of the career options that are available to them. Many pharmacists start out working for an organisation like National Pharmacies before gaining enough experience to start their own pharmacy.

Ginny (Verco 65-67) Ligertwood and Henry Rischbeith followed up the talk with a discussion about working as a Physiotherapist. Both Ginny and Henry had worked in their own practices and were able to tell students a lot about the day to day running of a practice and what skills they also require beyond their Physiotherapy degree. The talks were followed by a question and answer session that covered a lot of diverse areas from the Australian PBS system for Medicines to questions about the relevance of material taught within the degrees. All the students who attended gained a lot of valuable information about working in their chosen field of study.

This was our first mentoring dinner of the year. The collegians have been holding the mentoring dinners for several years now and they have all been very successful. The idea is to have a even match of students and professionals to allow the students to gain more of an insight into their chosen field as well as making all-important industry contacts. Previous mentoring dinners have included Business, Law, Medicine and Information Technology.

The collegians would like to hear from anyone willing to help out with a Mentoring dinner or knowing someone who would make a good speaker.
